

<coding tips by Gasper Grom>

Make amazing frontend

HTML5, CSS3, SASS, flexbox, JavaScript, jQuery, Angular6, Vue.js, Nuxt.js, React, Bootstrap, SVG, animations, Canvas, Lottie.js, responsive, PWA, Workbox

Gain some skills in backend too

PHP, SQL, Laravel, Node.js, Express.js, MongoDB, Go, Wordpress, Bedrock, Sage, Twig, Blade

TIP: Always code as if the guy who ends up maintaining your code will be a violent psychopath who knows where you live.

Create useful mobile apps

Android 7, Kotlin, Flutter, Ionic, React Native

Play with artificial intelligence, but not too much

Computer vision (OpenCV, SSD, GANs)
Machine learning (pytorch, tensorflow)
Chatbots (NLP, Seq2Seq, fb chatbots)
AR (AR.js, argon.js)
VR (aframe)

Other skills that counts too

npm, gulp, webpack, git, git flow
blockchain, ico, solidity, web3
Digital marketing (fb, insta, quora, yt, adwords, SEO)

Gain some experience

Povio labs (Frontend intern)
CNJ digital (Frontend, Wordpress developer)
AvantCar (Frontend developer)

Use great tools to improve your productivity

Use Asana, JIRA or Trello for task management, Invision, Zeplin and Marvel for designs, Slack and Franz for team communication
